TWO ASSETS

Only has the Democratic Party—the War
in Europe and the Ephemeral
Bull Moose Party

Washington, October 25.—Congressman Frank P. Woods, of Iowa, Chairman of the National Republican Congressional Committee, made the following statement today:

"The Democratic party enters the concluding week of the campaign of 1914 with only two assets—the war in Europe and the ephemeral Bull Moose party. The Republican party is coming back into power. Indications, today point to the obliteration of the present Democratic majority in Congress. There is no longer the least doubt of sweeping Republican gains in every quarter of the United States.

"The people are dissatisfied with Democratic incompetency. They are weary of Democratic experiments. They are tired of Democratic deceptions. There is good reason for this. The American citizen has fared poorly both at home and abroad. Industry is stagnant. Business is demoralized. Labor is unemployed. The people are ready for the restoration of the principles of protection advocated by William McKinley under which industry thrived and the people prospered.

"The Democrats in Congress have been guilty of gross extravagance. The money they have spent with profligate waste has come from the constituents of the very men sent to Congress to conserve the Nation's wealth and to administer its fiscal affairs economically."

THE GOOD ROADS ISSUE A VITAL PROPOSITION

In view of the approaching meeting of the American Road Congress in Atlanta, the first time the Congress has ever met in the South,—and the indication that it will be the most important meeting ever held in this or any other country in behalf of good roads and good streets, the Manufacturers' Record has turned this week's issue into a special Good Roads publication with a cover piece carrying the statement:

"Good Roads
Mean Progress and Life.

Bad Roads
Mean Poverty and Death."

Every phase of the road question is discussed and broadly covered. Details of expenditures that are being made by the sixteen Southern States show that the South is now annually putting out over \$50,000,000 in the building and maintenance of roads without counting its expenditure on street improvements in towns and cities. The work that is being done in every State is covered by letters from the Governors or from the Highway Commissioners, or other authorities who are handling the road question in the various States. Experts discuss various road building materials, including sand-clay, brick, cement, macadam and all other phases of road work.

In the opening editorial outlining its reasons for the work which it has been doing for years in behalf of good roads, the Manufacturers' Record says:

Reader! Are you a road engineer, a road builder, a road supervisor, or are you a county or town official charged with responsibilities of road and street building or maintenance?

Are you a maker or a seller of road machinery or road building equipment, or are you, as a taxpayer, encouraging the building of good roads?

If to any one of these questions you can answer, I am, then rejoice that you are numbered among those whose work is more than material in its scope. Per chance you think only of the material side of it. If so, look to the highest side and idealize your work as part of a great campaign for human advancement; a campaign for extending the highest benefits of civilization, and the moral, religious and educational life of a nation. Yours is more than a business. It is a vocation, a calling that should in its wide scope include in your thought the idealism of the work as well as the routine of the business.

It is difficult to measure the good accomplished by the building of good roads or to catalogue their advantages. It is equally difficult to enumerate the disadvantages which necessarily inure to bad roads. The good road opens to the country and to the city possibilities for larger business and for larger profits on the business done. It increases the value of all adjacent land; but it does this by increasing the net profits of farming or of business carried on on these adjacent lands. The farmer who lives on a mud road is hampered in summer and in winter. The burden of hauling to and from the farm costs him many times more than all the freight rate that he pays the railroads. It is one-tenth of the energy that has been expended in the last ten years in trying to regulate railroads and reduce freight rates had been given to the betterment of the highways of the country, infinitely larger results would have been achieved for the good of every body.

The railroad freight rate is a small item to the farmer as compared with that heavy burden he bears when he hauls the product of his farm over a mud road, or brings back to the farm the various things—whether they be dry-goods, or groceries, or lumber—that he buys in the neighboring town or city. Not only is his ability to do business to profit lessened by bad roads, and broadened by good roads, but in the former case his family is shut up for much of the year and deprived of the advantages of social and educational life; while the man who lives on a good road gives to his family the advantages of religious and educational and social facilities not possible to those who live where wheels are mired to the hub in winter time, or where intolerable dust exists in summer.

EGGS IN STORAGE

Should Not Remain More Than Six-
teen Months.

Chicago.—A recommendation that a Federal inspection of produce in cold storage be provided to take precedence over city and state supervision was made to the convention of the National Poultry, Butter and Egg Association when opened for a three days' session here.

It was declared that the age of cold-storage eggs should be reported to the Secretary of Agriculture, and 15 months was given as the time of retirement for eggs which have been preserved in ice.

If You Believe in Votes For Women Do Something

If you believe in votes for Women—
do something.

If you don't find your kind of work in the list below, keep thinking, and asking, and hunting till you do, then do it.

Join some Suffrage Association. If there isn't any where you live, form one.

Buy Suffrage Literature.
Give away Suffrage Literature—To friends, to clubs, in letters, at meetings.

Use Suffrage Postal Cards.

Use "Votes for Women" rubber stamps.

Write Suffrage articles for the papers.

Answer every article opposed to Equal Suffrage.

Offer to do some clerical or other "work" at headquarters.

Provide students with material for debate.

See that your Public Library has good Suffrage Literature.

Ask your minister to preach on Suffrage.

Speak if you can; if you can't, get up a meeting and find a speaker; if you can't find one, ask help from headquarters.

Get some young folks to sell Suffrage papers on the streets.

Have a Suffrage Speaker at your club.

Get Resolutions in favor passed by all organizations possible, and forward them to your legislators.

Interview or write your legislators personally, and convert them, if they need it.

If you live in a town—never let town meeting go by without distributing literature.

If you live in a city—never let an election go by without distributing literature near the polls, or advertising the cause by posters, on bill-boards, in street cars, in newspapers, or otherwise.

Most Important of All, join in the work of securing Suffrage interest in political form, by political district or organization. Ask the City or the State Association for information or advice.

Help or Die. Everything
Failed to Help Until He Got
Vinol. Read What He Says.

Atlee, Va.—"I was rapidly losing flesh, was weak, run-down, had no appetite, my blood was poor and I could not sleep nights. I am a farmer and truckman, so had to keep about my work, but I was so weak, tired and worn out I knew I had got to get help or die.

"Doctors gave me medicines and I tried everything that was recommended but I failed to get any help until I tried Vinol. I am now taking my third bottle, my appetite is fine, I sleep well all night, my blood is good and I am much stronger, in fact I feel like another man. Vinol is the best medicine I have ever taken."

—ORLANDO W. BORKET, Atlee, Va.

Vinol, our delicious cod liver and iron tonic, is a constitutional remedy for poor blood and all run-down, weak and debilitated conditions. Vinol creates a good hearty appetite and digestion, and makes pure healthy blood.

If we can induce you to try a bottle of Vinol as a body builder and strength-giver, and you do not find it is all we claim, we will return your money on demand.

(Commercial Tribune)
October 27, 1904.

General Thomas E. G. Ransom of the
Union Army died yesterday while only
a few miles from Rome, Ga., where it
was thought better facilities might re-
store his health. The General was well
known in Cincinnati, being a prime
favorite with both Sherman and Grant.

Major General Hooker and part of the
headquarters staff left yesterday for a
short tour of inspection the destination
not being made public.

There were six packet arrivals yester-
day and ten departures, business
being slack on account of bad weather

NEARLY 7,000,000 PEOPLE FACE TO
FACE WITH STARVATION

Nearly 7,000,000 people in Belgium
face famine unless they receive help
from outside at once.

The American Minister to Belgium,
Brand Whitlock, says that less than two
weeks' supply of food remains in the
cities, while conditions in the country
districts are even worse. Though Ger-
many has seized the food in some cities
for her soldiers, she still disclaims re-
sponsibility for feeding the Belgians.

Mr. Whitlock has had on hand only
peasants' black bread for two weeks,
and the supply of that is short. One
hundred soup kitchens are feeding over
100,000 of the needy in Brussels. Fam-
ilies formerly rich are discharging their
servants because they are bankrupt.
Noblemen may be seen slipping into the
soup kitchens.

The factories are closed. Many stores
remain open, but have no business. The
street cars are being operated, but the
railway train service has been sus-
pended. The supplies of coffee, tea,
flour, rye and salt are practically ex-
hausted.
